

Submit an application for an Occupation Certificate (OC) **Refer to the PURPLE text throughout for Darook's Planning Portal help**

To apply for an Occupation Certificate via the NSW Planning Portal (Portal), you will need a NSW Planning Portal account. To register a new account, refer to our *Register for the NSW Planning Portal* quick reference guide or video.

Initiate application

You can apply for an Occupation Certificate via the NSW Planning Portal using two different methods:

- As a related application (this will pre-populate content in the application form based on information within the related development application or complying development certificate application), or
- A new standalone application.

Follow the instructions below for your required method.

Related application

<p>1. Log in to the NSW Planning Portal. Open the related Development Application or Complying Development Certificate application by clicking on the reference number.</p>	 <p>A screenshot of a list of reference numbers in the NSW Planning Portal. The numbers are: CFT-17076, SB-2023-20, REM-961, ITSOC-2023-278, and PAN-21916. The number PAN-21916 is highlighted with a red box.</p>
<p>Note: The Development Application or Complying Development Certificate application will be in the Completed Work dashboard. Alternatively, you can enter the Portal reference number in the search function at the top of the screen.</p>	
<p>2. Click Request Related Application, then select Request Certificate.</p>	 <p>A screenshot of the 'Request related application' dropdown menu in the NSW Planning Portal. The menu is open, showing options: 'Request Certificate' (highlighted with a red box), 'S.68 of the Local Government Act', and 'Roads Act'. There are also 'Actions' and 'Close and home' buttons visible.</p>
<p>Note: When creating a related application, much of the information entered on the related development application will auto-populate to the Post Consent Certificate application.</p>

Note: When creating a related application, most of the information will be pre-populated from the related DA or CDC application. The site of development address and planning controls will be populated from the DA or CDC and is not editable.

- 7. Enter** the site of your development using the Address or Lot /Section number/Plan search functionality.
Repeat as required until all development sites are located.

Note: When you enter the address, it will be validated against the registered address database and any applicable planning rules.

If the address is registered, a map will display on the right-hand side of the screen with site information including the relevant local government area (LGA) on the left.

Note: For unregistered addresses, there is no auto-populate feature. You need to **tick** the **Address did not display** box and enter the address manually.

This will disable the predictive text feature and map functionality. You will also need to enter the Lot/Section/Plan number and select the relevant local government area name or State Agency.

- 8.** Once the property is located you must **identify** the Lot/Section/Plan and primary address of the development.
You can delete the address by **clicking** on the trash icon.
